Unless the trouble is due to some serious internal disorder, it quickly and easily heals most cases of eczema, rash, or similar tormenting skin or scalp eruption, although other treatments may have given little relief. Physicians have prescribed Resinol for over 20 years, and it contains nothing that could harm even a baby's delicate skin.

#### Dandruff Soon Ruins the Hair

Girls-if you want plenty of thick beautiful. glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently

with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every

single sign and trace of it.
You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Advt.
